Worksheet 12

Name

AEROPHONES

Any instrument, if the sound is produced by means of moving air, is an aerophone.

There are lots of different kinds of aerophones including all wind instruments.

However, the term aerophone is not limited to wind instruments.

A whip produces sound by means of moving air. It is an aerophone but not a wind instrument.

A siren is also an aerophone but not a wind instrument.

Here is a collection of aerophones. We have scrambled the letters.

See if you can unscramble them and identify the instruments.

The instruments used are included in those listed on the bottom of this page.
